TWO YEAR ROLL-ON PLAN:

While considering sanction of financial assistance to Animal Welfare Organisations, the Board took note of the point that certain schemes like construction of animal shelter/rescue homes need more fund and require more than one year's time for completion. For meeting such needs a two year Roll on Plan was approved. Under this, Societies/Animal Welfare Organisations which are doing good work and are prompt in settling accounts would be given a sizeable lump sum grant in the beginning of the financial year itself to be utilised in a two year time. In the second year, such Animal Welfare Organisations get only a small proportion grant for Establishment and cost of medicines.

These tours helped the Board to get acquainted with the needs of the Animal Welfare Organisations and their specific problems as also to ensure that the organisations are functioning effectively and the grants of the Board were utilised by them for the purpose for which they were sanctioned.
XVI CONCLUSION

The Animal Welfare Board of India completed 32 years of service in the country for the promotion of Animal Welfare and Prevention of Cruelty to Animals. During the year under report the activities of the Board extended all over the country including the north Eastern States and even remote parts of the country. The training courses conducted in various parts of the country helped the Board to extend the activities all over the country. The Nodal officers and the Animal Husbandry Department helped the Board in co-ordinating the activities of the Board.

Almost the entire country was covered by the tours of Chairman, Vice-Chairman, Members of the Board and the Officers and the Trainers. The Animal Welfare Organisations recognised by the Board were activated and the training courses were instrumental in propagating humane education in a big way. The trainees who had undergone the 5 day training courses had all been appointed as “Jiva Sarathi” or Honorary Animal Welfare Officers and this had given a boost to the activities of the Board.

The representatives of the Royal Society for the Prevention of Cruelty to Animals and World Society for the Protection of Animals visited the Board to extend their help and co-operation to undertake Animal Welfare activities in India.

The Tamil Nadu Government had allotted the land measuring 3100 sq.mts. However, the negotiations were continued to be made for allotment of land at concessional rate.

With the increased allocation of financial grants the Animal Welfare activities have been increasing consistently. We have no doubt that with increase in grants in the years to come the activities of the Board are bound to be more effective and the dumb friends of man, the animals would get their due share.
