ANIMAL WELFARE FORTNIGHT 2007

The Animal Welfare Fortnight (AWF) was observed from 14th - 30th January, 2007 by various Animal Welfare Organisations (AWOs) throughout the Country.

A large number of reports on the celebration of AWF were received from AWOs across the country were received. It is reported that AWOs are keen to expand their numbers and recruit more people to champion the cause of animal welfare and therefore they are rightly
aiming their programmes at school and college students – 'Catch 'one young' as their motto. Importantly, AWOs not only organised talks, essay and drawing competitions to educate and create awareness, but also made a serious effort to ensure lives of at least some animals during AWF, 2006. A consolidated report of AWF activities are given below:

1. Veterinary Health Camps: This was the most popular activity during AWF and practically every AWO had at least one such programme. Many held free camps in rural areas for cattle, horses and other domestic animals. Veterinary Doctors, Livestock inspectors and Departments of Animal Husbandry teamed up with AWO activists to treat the animals for ailments and gave them free medicines. Some AWOs provided free consultation services to pet owners, while others provided food to animals in the different areas they visited.

Compassion Unlimited Plus Action (CUPA), Bangalore was able to reach out to over 5,400 animals during AWF through its health camps organized in 25 villages and urban areas of Karnataka. Treatment, deworming and vaccinations were given to 3599 cattle, 164 horses, 605 sheep, 254 goats, 102 buffaloes, and 45 dogs; Animal Protection Unit, Orissa organized free feeding camps at Sufia, Barabati and Kusumpur villages and under 2 health camps, where nearly 400 animals were examined and given free medicines; Blue Cross, Andhra Pradesh treated nearly 200 animals in Erragudur village. SPCA, Chennai registered 253 cases of mixed variety of animals at its health camp at Vyasarpadi; Karuna Animal Welfare Association of Karnataka treated 62 cattle at its free health camp at Chitrakura; PFA Chandigarh provided treatment to 11 horses at a free horse cart camp; PFA, Ludhiana provided free consultation services to pet owners.

2. Animal Birth Control - Anti Rabies Vaccine (ABC - ARV) Camps: A number of AWOs held free sterilization and immunization programmes for stray and pet dogs and cats. The Animal & Bird Welfare Society, Howrah, West Bengal held a 2-day programme to immunize and sterilize stray dogs within the Howrah Municipal Corporation area. Leaflets were distributed throughout the town and the programme was also broadcast on TV and in the newspapers. A total of 145 ARV and 37 sterilisations were achieved. Karuna Animal Welfare Association of Karnataka held several ABC-ARV programmes in different areas. Karuna immunized 212 dogs in Madikeri, 59 dogs in Malleswarar, Bangalore, 176 dogs in Thirthahalli, 182 dogs at Chitradurga and 64 stray dogs in Kolkata. Some of the strays were also sterilized. Doctor's Pets Creche Animal Welfare Trust, Lucknow organized a 3-day camp where 223 ARV were administered to stray dogs and 23 to pet dogs. PFA-Goa immunized 169 dogs during a 2 days ARV camp in Mormugao municipality. SPCA, Chennai immunized 150 dogs and cats at Vyasarpadi.

3. Awareness Programmes in Educational Institutions: A number of AWOs held programmes in schools and colleges to create awareness among students about animal welfare and to teach them how to be activists in order to prevent cases of cruelty. The organisations participated in the celebrations were SPCA, Salem, Animal Protection Unit, Orissa, SPCA, Chennai, Blue Cross, Chennai, Blue Cross of Hyderabad, Andhra Pradesh, Shri Nidhi Animal Welfare Society, Andhra Pradesh, Foundation for Animals, Andhra Pradesh, CUPA, Bangalore.

4. Dog Shows: A rather unusual and fun-filled programme was the 'Well Dog Show' a whacky mongrel event organized by Blue Cross of India, Chennai to showcase the lovely community dogs as household pets. The event received wide media/press coverage. The programme was a huge success with over 44 entries coming in just under 2 hours.
5. Adoption Programmes: On the occasion of Animal Welfare Fortnight, the other AWOs also availed the opportunity to find homes for the abandoned small stray animals. Goa Animal Welfare Trust held an “Open Day” inviting members of the public to visit its shelter at Sonsondoor, learn about its work and hopefully feel motivated to adopt some of their well-cared for puppies. Karuna held a pet adoption programme at Hebbal, Bangalore.

6. Public Programmes: Public programmes on Animal Welfare were held in cities, towns and villages, involving well known personalities like cine stars, sports persons, musicians etc. Karuna Animal Welfare Association, Kolkata, Bhagwan Mahaveer Aimsa Prachar Sangh, Chennai, Shri Nichi Animal Welfare Society, Andhra Pradesh, Nanded SPCA, Doctor’s Pets Creche Animal Welfare Trust, Lucknow organised the functions.

WORKSHOP ON ROAD-MAP TO RABBIES FREE INDIA

The Animal Welfare Board of India organized a Workshop on 26.6.2006 at Madras Veterinary College, Chennai on the title “Roadmap to rabbies free India”. The delegates include Animal Welfare Organizations, Municipal authorities, City Corporations, Department of Veterinary Services and experts from Veterinary Universities. Dr. N. Balaraman, Vice-Chancellor, TANUVAS presided over the inauguration and Dr. K. Manivasan, Addl. Commissioner (Health), Corporation of Chennai inaugurated the workshop. In the first session, a presentation was made on the events in Chennai Corporation, in which dogs were subjected to either destruction or Animal Birth Control and relocation during a period of 25 years from 1980 to 2005. The analysis revealed that the occurrence of rabbies declined gradually in owned dogs due to reduction in stray dogs population by both the procedures. However, sustainable results were recorded only during the period when Animal Birth Control surgery and relocation of the stray dogs was performed as was evidenced by steady decline of rabbies in owned dogs. In addition, enforcement of solid waste management was also a major contributory factor to cause reduction in stray dog population since edible wastes and garbage were not available to them.

In the second session, a presentation was made on the proposal “Roadmap to rabbies free India” in which the major considerations included massive Animal Birth Control surgery of stray dogs (80%), massive Anti Rabies Vaccine of the owned and stray dogs continuously for a period of three years (atleast 80%) to induce herd immunity, destroy the focus of rabbies virus in the population. In addition, contributory factors like organized solid waste management is necessary. Extensive public awareness programmes will form the important base before implementation. The responsibility to implement the programme rests with the local administration authority (Municipalities/Corporations), State Governments as well as the Central Government.

In this programme, the use of oral Anti-Rabies Vaccine to immunize stray dogs was considered. The programme lasts upto 2 to 5 years by which time we should have achieved rabbies free India. Huge monetary requirement required for the programme must be met with by the Central and State Governments, national and international agencies, philanthropic bodies and from several other sources. The workshop was sponsored by Intervet India Pvt. Ltd., Pune.

The major achievement expected from the programme is saving of atleast 30,000 human beings from death due to rabbies and in addition to lakhs of animals which die due to rabbies. This will also exclude the need for post bite anti rabbies vaccination to human beings. Both the topics in the workshop were presented on by Dr. V.N. Appaji Rao, Vice Chairman, Animal Welfare Board of India, Chennai. The Workshop was successful as more than hundred representatives of Animal Welfare Organisations (AWOs), Society for Prevention of Cruelty to Animals (SPCA) and Animal Welfare activists participated in the workshop. This workshop also attracted the Municipal officials and Panchayat representatives towards humane approach of “Stray Dog Control” for Rabies Free India.
NATIONAL WORKSHOP ON CONTROL OF RABIES

The integrated National workshop on control of Rabies focused on the strategies, essential materials and methods, manpower requirements, infrastructural needs, procedures to assess the progress of plan, logistics of implementation, financial outlay, and role and functions of operative agencies in developing the action plan.

In order to address the problem of Rabies in human beings and the dogs – the main vector of Rabies in India separately, the participants were divided into two separate groups. Group I participants discussed and the recommendations are mentioned below:-

RECOMMENDATIONS OF GROUP I

1. Rabies should be made notifiable disease and all the animal bite cases, rabies cases and deaths due to rabies should be reported through a proper reporting system to the nodal agencies.

2. Proper methodology is adopted for registration of cases. The registration system must consist of particulars of human cases, particulars of animals, date of bite, nature of injuries and the first aid given. All the cases of animal bites reported at the health centre to be given first aid immediately and referred to appropriate facility for proper treatment and post exposure prophylaxis with Anti-Rabies Vaccine (ARV) information should also be included from private sectors.

3. Proper guideline must be developed on methodology for registration, notification for rabies and monthly, quarterly, annual reporting formats, first aids, referral of cases under the programme cases. This should be developed by Technical resource group to be coordinated by central monitoring unit of AWBI.

4. Facilities for vaccine storage, transportation under strict cold chain system must be provided under the programme.

5. Currently there are about 10 laboratories in the country that are providing diagnostic facilities. The group recommends that facilities for diagnostic laboratories should be extended to all the districts hospitals in a phased manner. The fluorescence microscope is costing Rs.8 lacs.
6. A committee should be constituted at district level with District Magistrate as chairman and Chief Medical Officer and Chief Veterinary Officer, Animal husbandry as vice-chairman. The members for the committee should be from department of health and family welfare, animal husbandry, forestry, environment, police, publicity departments as well as Zilla parishad.

7. Currently there are about 17 functional Infectious disease (ID) hospitals in India that have facilities for admission for rabies cases. The group recommended that every state should have one ID hospital and one/two isolation beds for rabies in every district hospitals.

8. As on date the facilities for capacity building in rabies care are not available. The group recommended that all hospitals having facilities for rabies care should be recognized for organizing training of all categories of staff. Specific training course shall be developed for training of health providers. The training courses should also be developed for pathologist's microbiologist and laboratory technicians of state and district hospitals.

9. The group suggested that special centres should be identified for training at various known institutions.

10. The group suggested that a national level National Institute of Communicable Disease, New Delhi and Indian Veterinary Institute Bareilly, Wildlife Institute of India, Dehradun should be identified as nodal agencies for human rabies, canine rabies and wildlife respectively.

11. The group also suggested that a steering committee for rabies control under the Chairmanship of AWBI be constituted with Animal Husbandry Commissioner, Directorate General of Health Services and also Addl. Secretary, Environment & Forests as co-chairman. The members should include one representative from pollution control Board of India, 6 District Health Services, 6 Directors of Animal Husbandry, 6 Municipal Commissioners on rotation and representative from human and animal vaccine production institutes, Govt. of India.

12. Strengthening of vaccine manufacturing institution. The states should submit their annual demand in advance and supply to the state should be at the Government rate. The private institution can meet the demand of the private sector.

13. AWBI should prepare the draft on Pilot Project for National Rabies Control Programme for five years and put up year wise plan of action for implementation in consultation with three nodal institutes of the respective ministries.

14. AWBI should also take up activities of advocacy and International Ethical Committee and the activities should be planned through mass media, press, documentary films, interpersonal communications, leaflets, posters and hoardings to be displayed at important places. The prototypes should be given to the states.

15. Advocacy programme should also be undertaken through panchayati raj system, schools, Scouts & Guides and National Cadet Corps. etc.
16. Monitoring indictors should be developed for assessing progress with respect to morbidity, mortality, post exposure vaccination, number of functioning clinics for ARV services and garbage disposal facilities.

17. Pilot projects for elimination of rabies should also be undertaken in five urban and five rural areas one each in five regions of the country. The pilot project preparation should be coordinated by AWBI in collaboration with State Government authorities and three nodal departments of the respective ministries. The selection for sites for pilot project should be confirmed by AWBI in consultation with diagnostic labs of the concerned states.

18. Financial support should be provided for supervision and monitoring and coordination to AWBI for control monitoring and coordination cell.

RECOMMENDATIONS OF GROUP II

1. Government of India, Dept. of Animal Husbandry and Dairying must take steps to make rabies a notifiable disease. Rabies should be included in the scheduled list of diseases to be reported immediately on occurrence by the State Animal Husbandry Departments to the Ministry of Agriculture, (Department of Animal Husbandry Department and Dairying, Directorate General of Health Services, Ministry of Health family welfare and Animal Welfare Board of India, Ministry of Environment & Forests.

2. In order to Control Rabies and the population of stray/community dogs, the ongoing AWBI programme on the ABC/AR needs to be intensified and strengthened to target sterilizations of at least two lacs stray/community dogs and progressively increase the number every year.
3. In order to immunize the stray/community dogs not accessible for parental vaccination, the oral bait vaccine approved by World Health Organisation and recommended by the Dept. of Animal Husbandry, Ministry of Agriculture and registered by the Drug Controller, Government of India be used.

4. The State Animal Husbandry Departments in coordination with local bodies like Municipalities/ Rural administration (Panchayat), should undertake enumeration of owned/community/stray dogs in the villages, towns, cities to have baseline data on population of dogs which will help in planning the control strategies. The data be compiled centrally by AWBI.

5. All the owned pet dogs must be compulsorily vaccinated against rabies every year as per provisions of rules under Prevention of Cruelty to Animals Act 1960, (Animal Birth Control (Dogs) Rule 2001 (Para 3)) for strict implementation by local bodies. All the owned dogs must be licensed by local / municipal bodies based on the vaccination certificate from a Veterinarian registered with the Veterinary Council of India. Defaulters must be penalized at the rate of Rs.500/- per dog.

6. For effective control and a step towards eradication, at least 70% of the community/stray dogs must be vaccinated against rabies using injectable/oral rabies vaccine with the help of State Animal Husbandry Department, NGOs, AWOs/SPCAs, and local authorities. The Central and respective State Governments should share the cost of vaccine. (Para 3.3 of rules ABC Dog rules 2001 under the Prevention of Cruelty to Animals Act 1960)

7. The Veterinary Colleges all over the Country must take up an orientation programme on the techniques and procedures of ABC surgery for field veterinarians. A short orientation/refresher courses for training the field veterinarians be conducted at all veterinary colleges to empower the field veterinarians to perform ABC surgeries with professional competence.

8. AWOs/NGOs must be fully utilized for intensive ABC/ARV drive as well as Mass Immunization of Dogs. Their existing facilities must be expanded manifold to address the magnitude of this problem.

9. The dog breeders must be registered as per the provisions of Prevention of Cruelty to Animals Act 1960 (ABC/Dogs) Rule 2001 with the local bodies & AWBI to control their indiscriminate breeding of dogs for commercial purposes.

10. The pet shops dealing with sale/purchase of pups should be registered with AWBI/local bodies and periodically inspected to ensure proper hygiene/sanitation as part of animal welfare concerns.

11. There is an urgent need to create public awareness and sensitize citizens about the rabies control programme – AWBI should take care of this requirement.

12. Humane euthanasia of Pet/Stray/Community dogs suffering with incurable diseases and intractable conditions must be practiced to save the animal from the agony.

13. CNG operated crematoria for Pets/ Stray/ Community dogs cremation conforming to Pollution Control Norms (As per ABC (Dogs) Act 2001 be immediately established by all local bodies/municipalities.

14. Identification of rabies endemic areas/zones, which have high incidence of rabies both in human beings and animals be carried out after collating information obtained from States, Veterinary and Health Departments.
15. The identified high-risk endemic areas be included in the Pilot Projects of the Scheme and immunization of dogs be carried out by injectable/oral vaccine to cover 70% of the population.

16. In view of the ensuing commonwealth games in 2010, Delhi should be one of the metros to be targeted first for rabies control Pilot Project. The other Metros may be covered in subsequent periods.

17. The Rabies Control Programme should initially be undertaken for five years in 11th Plan, which should then be reviewed and extended further to control and finally eradicate the disease. However, ABC/AR Program should be progressively intensified every year on war footing so as to control the population of dogs.

18. For the successful implementation of the recommendations of this project, an active participation from all the three concerned ministries (Animal Welfare Board of India, Ministry of Environment & Forests, Ministry of Health & Family Welfare, Department of Animal Husbandry, Ministry of Agriculture) is essential.

WORKSHOP ON VET. BEYOND BORDERS

A National Workshop on ABC/AR was organised by Vet. Beyond Borders held in Chennai on Jan.9, 2007 and the workshop was entirely dedicated for the ABC programme. More than dozen papers were presented in this workshop. The Chairman of the AWBI presented his paper on ABC Programme and highlighted the Indian efforts for the present and past. Total 120 delegates participated the workshop throughout the world and the Indian effort for the ABC programme was quite interactive among the delegates. As per organisers around 25% delegates were from abroad. Synchronising the announcement of first time ever concept ‘Rabies Free India’ by the Animal Welfare Board of India, the AWBI brought out the quarterly issue of its quarterly magazine ‘Animal Citizen’ focussed on intensive efforts to control rabies. The issue highlights on the principles of animal birth control (ABC) by surgical procedures of sterilisation along with anti rabies vaccination. The contents explain the observations and effects of ABC of stray dogs in different cities and towns as reported by the various animal welfare organisations.

The report from Jaipur is a scientific publication publication authenticating that intensive ABC/AR resulted in significant reduction in stray dog population as well as rabies in human beings. The articles clearly indicate that dog population control as well as rabies control is definitely possible by intensive ABC/AR of stray dogs along with solid waste management. This can be achieved by the lead role of municipal administration and veterinary profession. This issue of Animal Citizen was released by Maj. Gen. (Retd.) Dr. R.M.Kharb and the first copy was handed over to Mrs. Maneka Gandhi, MP and Member, AWBI at the inaugural function of ”VET BEYOND BORDERS” at Chennai on Jan. 2007.

**SPECIAL MESSAGE TO AWOS**

The reconstitution of Animal Welfare Board of India (AWBI) took place on 9th May, 2006. The new Board assembled on 20th July, 2006 and discussed various policies of the Board. The Chairman, announced the "New Policy" during the 33rd General Meeting of the Board which was held in Chennai.

"Rabies continues to remain a serious threat to human health and it can only be controlled by further strengthening our ABC programme. A lot of good work is being done for the animal welfare by the AWOs, NGOs, SPCAs and other bodies with the financial aid received through Animal Welfare Board of India. However, there is enormous scope for enhancing our activities in all corners of our country".

Gen. Kharb said that cruelties to the animals cannot be fully eliminated till all human beings have self quality to feel for kindness and compassion towards all the living creatures. As a prime task, the Board would sensitize the people to organise extensive animal welfare programmes at various levels through different measures. He said that the functioning of "National Institute of Animal Welfare" would also be ensured for its effective functioning.

"As pilot project, the ABC/AR Programme would be launched at grassroot level to control stray dog population and rabies. Thus, the ABC Programme will be made more successful through training and orientation in ABC with modern dog catching procedures". The Chairman emphasised the establishment of "Model Goshalas" to teach and train the goshala personnel for self-sufficiency with appropriate Organic Farming, Gobargas Plants, etc., as supporting enterprises. The Board would encourage goshalas to be economically viable and sustainable in the country. The Board must bring out effective beneficial measures. Animal Welfare measures must be strengthened for the purpose of improving public health such as pollution control, modernising slaughterhouses and even surprise checks of the working conditions in slaughter houses and bazaar will be conducted along with manpower assistance from Local Bodies and Animal Husbandry departments in prime areas.

IX. ANIMAL BIRTH CONTROL PROGRAMME

For more than a century, the municipal corporations, municipalities and local bodies pursued a policy of catching and killing of stray dogs, as a means to control their population and spread of rabies. In spite of continuous mass destruction of dogs by local authorities, neither the population of stray dogs nor the spread of rabies could be controlled.

In 1990, the World Society for Protection of Animals, London (WSPA) and the World Health Organisation (WHO) brought out their “Guidelines for Dog Population Management”, followed by WSPA’s guidelines for “Stray Dog Control”.

In 1994, the Board introduced the Animal Birth Control Programme on a small scale as a pilot project in the six metropolitan cities of Delhi, Mumbai, Kolkata, Chennai, Bangalore and Hyderabad with the financial assistance from Royal Society for Prevention of Cruelty to Animals, London (RSPCA). The Govt. of India enacted the Animal Birth Control (Dogs) Rules, 2001 under which the municipal corporation/municipalities are obliged to implement the animal birth control programme. However, very few of the Municipalities have come forward to implement the ABC programme.

The MCEF started providing financial assistance to the ABC programme as a Centrally Sponsored Scheme. This scheme was transferred to the Board in 2004-05.

A view of the ear notching of the stray dog after sterilization.

The Animal Welfare Board of India, with the help of certain AWOs, is implementing the ABC programme in a limited way. The AWOs, having the requisite infrastructure facilities like hospital/clinic with operation theatres, kennels, veterinary surgeons and para medical staff can apply to the Board for ABC grant. The help and co-operation as also an Memorandum of Understanding with the local corporation/municipality is necessary for the successful implementation of the project.

In cities where the ABC programme has been in progress for the last four to five years, the population of stray dogs and incidence of rabies cases has certainly recorded a decline.

**XV AWOs ACTIVITIES**

**Rescued Birds Set Free**: The issue of the recently rescued 739 captivated birds and the one who caught them, Shiv Raj, has shocked all animal lovers. The district court on rejected the bail plea of the accused and sent him to jail. It also passed orders for the arrest of the officials involved in illegal sale of birds and made arrangements for sending them back to their natural environment.

The birds were set free by forest officials at the Kukrail picnic spot. Sources said, the court was convinced with the two main arguments that Shiv Raj was a perpetual offender and also that birds were not meant to be caged. Director, Lucknow Zoological gardens, Ms. Eva Sharma was deputed for the task to set them free. As per the directions of the court, the birds were freed in the presence of a gazetted officer and a social worker. The court directed the Lucknow zoo to accommodate as many of these birds as possible. Regarding this, Conservator of Forests, Shri Uma Shankar Singh said all the protected birds had already been sent to the Lucknow zoo.

**Successful Surgery of a Circus Hippo**: The Tamilnadu Veterinary and Animal Sciences University (TANUVAS) successfully operated upon a circus hippopotamus which was suffering from a unique mental problem. This was the first such operation done in the country, said Dr. N Balaraman, Vice-Chancellor of the university. Sharing his team’s success story with reporters on 16th March 2006 the Vice-Chancellor said that the 30 year old male - Raja, weighing 2,500 kg, which is part of the touring Jumbo Circus, was operated upon on March 12. Both of the hippo’s canines had overgrown to the extent that he was unable to close his mouth.

“This meant that the hippo was not able to masticate the food properly and there was a possibility that it could have choked to death and the canines had been cutting into its upper gums causing it pain. This problem occurs when wild animals are kept in captivity. In the wild, their teeth and nails get worn out as they grow. But in captivity they need to be trimmed”.

A team of surgeons then studied the case. Cutting or sawing off the extra growth of the teeth was the solution. But the surgeons would have to be careful not to saw too close to the roots of the teeth as this would cause bleeding and infection. Another hurdle was that due to the amount of heat they emanate, hippos cannot survive for more than 10 minutes out of water but while in water, they can turn violent, he explained.

**Bid to smuggle dogs foiled**: An attempt to take by force dogs from Cott to Karnataka was thwarted. Over 15 dogs were rescued by Shri Nigel Otter of Indian Project for Animal & Nature (IPAN) and Ms. Roxanne Davur Conz of Terra Anima at Nilgiris. These dogs are used for
skinning, fertilizer and various nefarious purposes. The dog catchers belonging to Gundalpet and Mysore used to come at regular intervals and their illegal activities was going on. On the day of rescue of dogs, the message was received by animal activists that a dog was being dragged on the road by a youth.

A group from Melkottal near Mysore came here to catch dogs for sale to farmers in Karnataka State. The offenders targeted dogs which neither fell in the pedigree category nor could be classified as stray. A total of fifteen dogs were found in a hotel room, occupied by a three member gang. After completion of legal formalities, the animals were given to IPAN's shelter located at Mavanhallah for their care.

**Dr. Dog to the Rescue**: Dr. Badgeo makes house calls at V Excel School Abhiramapuram, twice a month. Most of the children are delighted when he arrives and welcomes him with joy and curiosity. Others maintain their distance, afraid to get too close, yet not afraid enough to runaway. Soon, deciding that Dr Badgeo is worth getting to know better, they come closer to the doctor, who is lying quietly on the floor, wagging his tail.

Dr Badgeo is a dog. But no ordinary dog. He is part of Blue Cross's animal therapy programme called Dr. Dog. "The removal of fear is the programme's pivot point. A child may be scared initially, but eventually he'll lose the fear and get curious about the dog. He'll ask questions and touch him. This builds trust and bonding. This is important because many of our children avoid any kind of physical contact.

Not every dog can qualify as a Dr. Dog. Each canine candidates is put through a grueling assessment test by a veterinarian where he is pushed, shouted at, poked, pulled sometimes even picked up and dropped. Then he's given a special identity tag. "Anyone would think I am abusing the dog, but there are things that a small child might do. I have to make sure that the dog doesn't react negatively. The slightest reaction would immediately disqualify him."

**Youth Arrested for Injuring Animal**: The Bharatiya Prani Mithra Sangh, has filed a complaint with the JJ Nagar Police Station Mogappair at Chennai (Tamilnadu) that a resident of a Paneer Nagar, caused ruthless injury and mutilated a dog owned by Dakshinamoorthy of Mogappair, by pouring acid on the animal. Arrest was sought under Section 428 IPC, for causing brutality to an animal in the complaint filed. J.J. Police have arrested Sakhivel (18) in this connection.

**Life-Term for Bovine Slaughter**: Hon'ble State Chief Minister Shri Shivraj Singh Chauhan, has decided to bring a legislation in the Assembly to strengthen its anti-cow slaughter Act in the M.P. State. While States had banned cow slaughter, the move to make it an offence liable to life imprisonment towards protection of cow's and its progeny.

Under the existing "cow slaughter ban" law in the state, any person found guilty of cow slaughter or even selling cows or donating for the purpose of slaughter could face imprisonment for three years and a fine upto Rs.10,000. The official website of the Madhya Pradesh government has details about its "gau sevak yojna" and "cattle buffalo breeding projects". "And banning cow slaughter is on the top of the Sangh's priority list".

**Evaluation of the benefits of ABC on Stray Dogs**: Chennai Corporation (like all other civic bodies) has been adopting the procedure of destruction to control stray dog population in its corporation limits, ever since 100 years. However, the procedure of Animal Birth Control
(ABC) by sterilisation of the male and female dogs is in place since 1995, partially replacing
destruction of stray dogs and totally from the year 2000 onwards. Chennai Corporation entered
into a clear understanding with two animal welfare organisations (Blue Cross of India and
People for Animals) to undertake ABC surgery, postoperative care, anti rabies vaccination and
relocation of the dogs in the same area, from where they were caught.

The data relating to the number of dogs destroyed during 1980 to 2005, numbers subjected
to ABC/ARV and relocation and distribution of dogs among AWO for ABC/ARV was obtained
from the Veterinary Officer of Chennai Corporation. In order to evaluate the effects of either
procedures (destruction or ABC/ARV) on stray dog population control and occurrence of rabies,
the data of prevalence of rabies among owned dogs as was recorded by the Department of
Pathology in Madras Veterinary College was obtained.

During the years 1980-1999 the corporation of Chennai destroyed 2,19,068 dogs at an
annual average of 10953 dogs. During 1996-2005, the animal welfare organizations, Blue Cross
of India, People for Animals and Society for Prevention of Cruelty to Animals performed 35170
(32.33%), 67232 (61.80%) and 6389 (5.87%) ABC surgeries averaging 11145 dogs per year.
Analysis of data revealed that 2136 owned dogs proved positive to rabies during the years
1980-2005 at an annual average of 85 cases. Analysis further revealed that the annual average
of owned dogs positive to dogs were 97 during the period when destruction of stray dogs was
practiced during 1980 to 1996 and the annual average was 58 during the period of ABC surgery
(1996 to 2005). This is highly significant.

Paws Rescues Injured Donkey : Plants and Animal Welfare Society (PAWS) team
administered the tetanus vaccines for donkeys. The team also rescued one female donkey
which was later named ‘Monali’. She was injured, lying near Bus stand unattended on 7th June
2006. Her front right leg was fully maggot-wounded and totally eaten up by maggots. Finally the
team decided to rescue it.

Unicef Impressed with Biogas Project :The apparatus, developed at Kanpur based Bhauti
Gaushala, propagating the concept of low cost biogas system and the use of animal power for
fetching water can soon be adopted in villages and towns all over the country and also in other
developing and underdeveloped countries of Asia. Highly impressed with the idea, the officials
of the United Nations International Children Emergency Fund (UNICEF) have given consent to
seek approval regarding its assimilation under the ‘Water and sanitation’ project being run by
the Government of India in collaboration with the UNICEF.

Basically working to promote health and civic awareness by focusing on upgradation of
sanitation and drinking water facilities in the villages. The concept of biogas system, as developed
at Kanpur, could enable the production of low cost cooking gas with the use of agricultural,
animal and the human waste. It can be of a great help provided we manage to educate people
in village to use stationary lavatories.

International Recognition to Goa SPCA :The Goa SPCA (including the Socrates Oliver
Veterinary Hospital) has now been accepted as a Member Society with the World Society for
the Protection of Animals (WSPA). The WSPA has a consultative role with the UN and consists

for all facilities and service to all creatures. A representative of Goa SPCA attended WSPA’s
25th anniversary symposium in London, in which an important part of the agenda was "the United Nations acceptance of the Universal Declaration of Animal Rights". WSPA targets to sign up 10 million petitions while Goa SPCA was the 144th signatory.

Rehabilitation of Hippo: A male hippopotamus from a private circus was abandoned in a village near Polur, languishing without sufficient water. Representatives of People for Animals (PFA) at Tiruvannamalai checked the hippo's condition and found that two attendants from the circus were taking care of the animal in a locality owned by the Forest Department. Raja, the 18 year old male hippopotamus, is being kept in a shaded tank measuring 4x4.5 metres with five feet of water level. The animal has been kept there for almost nine weeks. In the morning, the hippo's was given five loaves of bread, five litres of milk, a bunch of bananas and 40 kg of grass. In the evening, carrots, potatoes and rice were provided. The animal spends most of its time in the tank and comes out only to feed. Later on, the Wildlife authorities intervened and shifted the animal to a suitable place.

Use Non-leather Shoes / Products: Karuna International (KI) constantly propagates the prevention of cruelty caused to voiceless animals through the Karuna clubs functioning in more than 1070 schools and colleges all over India. The animals are slain in abundance in abattoirs for meat and leather. It is quite obvious, that these animals are subjected to a lot of ruthless cruelties done for the purpose of skin. This process is harmful, needs time, money and labour. Harmful effluents are discharged from tanneries while curing leather causing environmental pollution. They spoil the fertile agricultural lands and sub-soil potable water.

Jyoti Basu Appreciates Ashari: Before ten years, Shri Jyoti Basu, then Chief Minister of West Bengal had donated four acres land to People for Animals (PFA) to set up an ideal animal hospital in the city. A 23 feet long crocodile from the estuaries of Bhitarankanika wildlife sanctuary has already been recorded in 2006th edition of Guinness Book of World Records.

Proactive Animal Welfare Concerns: The Govt. of Tamil Nadu examined the request of the Animal Welfare Board of India and forthwith cancelled the ongoing practice of annual conditioning camp for temple elephants. Killing of Dogs Complaint Lodged: The People for Animals (PIA) filed a complaint at the Selaiyur Police station on 1 September, 2006 seeking action against those responsible for the ruthless killing of stray dogs on the Madras Christian College campus. The complaint was based on the report published by a local newspaper on the killing of dogs. Some of the students and teachers had come forward to help the organization and to stand against the authorities. The Selaiyur police said that they would be registering a case against the college authorities based on the complaint filed by the PIA.

Ban Tuskers from City: Animal activists are planning to battle for a ban on the entry of elephants into the city and will soon move the Bombay high court. Spurred by the plight of Laxmi, the elephant which died after being hit by a speeding truck last week, the Society for Prevention of Cruelty to Animals (SPCA) has decided to file a PIL along with other NGOs. Activists point out that a similar PIL had resulted in camels, which were being used for rides at Juhu beach in unhealthy conditions, being barred from being brought into the city. The fact that repeated action against the owners doesn’t deter them from committing an offence. SPCA staff would often confiscate animals roaming around in Central and South Mumbai. But reaching the suburbs was a problem for us. So animal owners took a advantage and shifted their trade there.

Home for Puppies Opened: A new home for the homeless puppies was unveiled at the Blue Cross Shelter on its Velacherry premises. The new pens, created at a cost of Rs.2.78 lakhs, will accommodate about 50 puppies. While the Inner Wheel District 323 donated Rs.1.28 lakhs, the Blue Cross contributed the remaining amount, he said. On an average, the animal welfare organization rescued or received 100 puppies a month. The number of abandoned puppies in the city has increased considerably and this increase was mainly due to pet owners who failed to spay their pets.

A visit to Karnataka & Kerala States: The Supreme Court on 9.10.06 directed the Special Secretary, Municipal Administration of Tamil Nadu to file an affidavit by November, 3, in response to the Animal Welfare Board of India’s report on the state of slaughter houses in Tamil Nadu and also in the light of a slew of suggestions made by Raj Panjwani, counsel for the petitioners – People for Ethical Treatment of Animals, to improve the conditions in slaughter houses.

A Bench comprising of Chief Justice Y.K. Sabharwal and Justice C.K. Thakker directed the Animal Welfare Board of India (AWBI) to inspect the slaughter houses in Karnataka and Kerala and submit a report within three months on the condition of slaughter houses in these two states. The apex court had earlier directed the Tamil Nadu Government to file an affidavit on the condition of slaughter houses in the state and directed the AWBI to inspect the slaughter
houses and file its report. However, it was stated the affidavit filed by Tamil Nadu does not deal with the observations made by the AWBI. The report of the AWBI stated that slaughter houses in Tamil Nadu are in a very bad condition and that they do not comply with the laid down rules.

Case against Bull Fights – Organisers: Contempt has been filed by People for Animals (PIA) – Goa in the Bombay High Court at Goa, against the Chief Secretary of the Goa Govt. and the Director General of Police for allowing dhirios (bullfights) to take place despite a High Court order banning them. PIA has alleged that the dhirios are taking place with political patronage and that the police are turning a blind eye to this violation of the Prevention of Cruelty to Animals Act, 1960.

Dhirios, once a popular sport in Goa, were stopped following a High Court judgement and ban 10 years ago. In its judgement, the High Court declared that dhirios are in contravention of the PCA, 1960 and it directed the State Government to take immediate steps to ban all types of animal fights. The Supreme Court upheld the High Court order when the bull owners went in appeal.

In their affidavits filed in the contempt petition this year, the Superintendents of Police, North and South Goa admit that bullfights have taken place and pleaded helplessness. PIA said that they are outwitted by parties organizing the fights are advertising is done by word of mouth or by messaging through cell phones and the crowd which collects is non-cooperative. Not satisfied with the affidavits of the police, the High Court directed the Chief Secretary to inform the Court about how the state will ensure that its judgement is complied with.

Underlining the need for refining experimental protocols on animal research to reduce the distress in them, the Chairman of the Animal Welfare Board of India, Maj. Gen. (Retd.) Dr. R.M. Kharb, AVSM was the chief guest of the workshop suggested that research institutes should explore alternative methods in bio-technology, which do not require the use of animals.

New Vaccine for Rabies Menace: With about 20,000 people dying of rabies every year in the country, the Animal Welfare Board of India (AWBI) is launching a pilot project in metros and 20 rural areas to immunize stray dogs to prevent rabies. An imported oral bait vaccine will be used under the project recommended by the World Health Organisation (WHO). AWBI Chairman said that rabies was fully preventable and had been eradicated from several countries in Europe as well as Malaysia and Singapore. However, it was causing a heavy financial burden on India as post-rabies exposure treatment in humans was costing about Rs.300 crores annually and another Rs.10 crores in animals. Besides human fatalities, rabid dog bites cause a large number of deaths in cattle, sheep, goat and camels.

Plans had been finalized to launch the WHO-recommended immunization programme on a pilot basis in Delhi and Chennai. It was proposed to be launched shortly in Hyderabad and other metros. After assessing its efficacy for a year, the project would be extended all over the country. The project would annually cost about Rs.250 crores. He said the incidence of rabies
as well as mortality caused by the disease was high in the rural areas. Under the project, it was envisaged to form mobile teams which on receiving information about the occurrence of rabies cases from an area, would rush to the place and immunise the stray and also the dog bite victim.

He said that AWBI was the only agency in the country which was involved in controlling the population of stray dogs through its Animal Birth Control Programme (ABC) and anti-rabies inoculation. While there are 15 to 20 million stray dogs in the country, over 70,000 are being sterilized/neutered every year. "We want to increase the exercise by three to four times. Then only it will have an effect on population control", Gen. Kharb added.

Ideals of Karuna Brings Out a Tremendous Change in the Younger Minds : The 11th All India conference of "Karuna Clubs" was held at Bikaner, Rajasthan on 29th and 30th December 2006 in a grand manner. The chief guest Maj. Gen. (Retd.) Dr. R.M. Kharb, AVSM, Chairman Animal Welfare Board of India presented the outstanding "Karuna Club Awards" to 12 schools and "Category Awards" to 10 schools. During the inaugural address, Gen. Kharb said that the Karuna Movement is spreading at present in India and abroad with immense rapidity. Now, Karuna Clubs are functioning in more than 1200 schools and colleges. The ideals of karuna, brings out a tremendous change in the minds of the students and the common public.

The Chairman, AWBI presenting the awards at the 11th National Convention and National Award Ceremony Programme of Karuna International at Bikaner

More than 650 delegates consisting of Principals, teachers, educationalists from schools and colleges all over India attended the conference. Many representatives of animal welfare organizations and social workers also attended the conference. The inaugural function of the conference was held at Bafna Academy Senior Secondary School, Bikaner. Sri D.C. Jain, the National President of Karuna International hoisted the karuna flag. The impressive karuna prayer song was sung by 16 students at that moment.

Vaccination Programme Launched : The Chairman, Animal Welfare Board of India (AWBI) formally launched the 5th round of 'Foot and Mouth Disease Vaccination' programme on 25th November, 2006 at C.Mallavarma near Tirupathi. Joint Director of Animal Husbandry Dr. D.
Someshkaram, Civic Health official Dr. B. Bishmaiah Naidu and Animal Care Land Honorary President Shri N.V. Srikante Babu were also present. The Chairman, AWBI said that the blueprint for the implementation of an ambitious plan to drive out rabies from the country is ready. The plan will be implemented at a cost of Rs.1,500 crores over a period of six years.

Disclosing this to media persons, the Chairman of Animal Welfare Board of India (AWBI) Maj. Gen. (Retd.) Dr. R.M. Khamb said that the dreaded disease was not only killing 30,000 persons every year, but was even responsible for the death of lakhs of animals. He suggested Animal Birth Control (ABC) and vaccination is the only way available to wipe out the disease. Accompanied by AWBI Vice-Chairman Dr. V.N. Appaji Rao, Secretary, Dr. R. Balasubramanian and Member Shri G.L. Soni, visited the sterilization centre run by an NGO, Animal Care Land, where the stray dogs being housed in kennels, prior to taking up ABC. Expressing concern over the falling level of compassion in humans towards animals, a greater role in handling the twin tasks of protecting animals as well as preventing the diseases spread through them.

**AWBI Exhibition Held** : The Animal Welfare Board of India (AWBI) participated the National Conference cum Exhibition on rural development from 25th to 29th November, 2006 at Tirupathi and the AWBI was invited for participating the workshop. The organizers permitted to put up a stall to demonstrate the activities of the Board. This event was organised by well known Gandhian and freedom fighter, Ms. Nirmala Desh Pandey. The conference was inaugicated on 25th November, 2006 by Smt. Sonia Gandhi, Hon'ble Chairperson of UPA Govt. The AWBI had arranged a exhibition cum stall based on various major activities of animal welfare like goshalas development, organic farming, ABC project, financial grain-in-aid for vet-care and rescue of animals, humane education/training and research development including enforcement of animal lovers.

It is reported that many self help group of various State of far and near were also present in the workshop. Approximately 40-45 thousand delegates participated the programme while last day of the programme was very attractive and the number of participant were doubled. From starting to end, the participants of workshop were visited to stall in huge number and the AWBI stall was major centre of attraction.

**TANUVAS Develops Alternative - Rusitec** : In what could warm the hearts of animal rights activists, the Tamil Nadu Veterinary and Animal Sciences University (TANUVAS) in Chennai has come out with a Rumen Simulation Technique (RUSITEC) which does away with the need for using cattle in certain live experiments.

So far, in India, Veterinarians use cows, buffaloes, goats and sheep for the experiment. To carry out research, a big hole of more than five inches of diameter is made in the stomach of cattle and a tube from a nylon bag with a feed would be inserted. The animal was observed for various time frames and the hole was then capped.

**Board Condemns Killing of Stray Dogs** : Animal Welfare Board of India (AWBI) Chairman condemned the killing of stray dogs in Bangalore. At a press conference held on 14th March, 2007, he said that the killing of stray dogs should be stopped immediately. A monitoring committee should be formed. What is happening in Bangalore is cruel. Elaborating on the series of events
planned by the AWBI, he said with the help of over 2,500 NGOs and by joining hands with Society for the Prevention of Cruelty to Animals (SPCA), the Board has planned to conduct 'Rabies Free India' pilot projects across the country.

A view of rescued stray dogs kept at shelter of an AWO.

Later speaking to Media, Gen. Kharb said that pilot projects have been implemented in places like Gurgaon, East Delhi, Jodhpur, Ludhiana and Bangalore. He further said that there was urgent need to interact with, educate and sensitise animal lovers and the general public so that such acts of cruelty to animals were curbed. A national seminar in this regard will also be organized shortly, he informed. He quoted the World Health Organisation (WHO) recommendation that we must adopt the Animal Birth Control (ABC) or Anti-Rabies (AR) Programme rather than kill these animals.

Dog Biscuit with Anti-Rabies Vaccine: If European countries can be made rabies-free why not India? Working just on this premise, a new oral anti-rabies vaccine was tested on a few stray dogs in Bangalore on 24th Feb. 2007. The initiative mooted by the World Health Organisation (WHO), had officials demonstrating the vaccine at the CUPA shelter, in the presence of government officials, BBMP personnel and animal husbandry department personnel. Explains Dr. Jaques Barrat, OIE collaborative center, WHO, "Mass culling of dogs is not a solution and we are strongly against that. The oral vaccine is effective as it is user-friendly and can be used on stray dogs that are almost impossible to catch."

The oral vaccine looks like a white biscuit and is used as a bait for stray dogs. Once these dogs eat these biscuits, they ingest a sticky liquid, which is the vaccine. The Chairman, Animal Welfare Board of India, says the vaccine has been received well by the New Delhi government and that plans are afoot to introduce this in other states and cities as well. The vaccine has to be administered to the dogs in the morning, before they have been exposed to garbage or meat or other food. Experts say that it may not be effective in the afternoon or later.
Here's the magnitude of the problem of stray dogs. India has 18 million stray dogs and in New Delhi alone has 5 lakh stray dogs, of which East Delhi has 1 lakh dogs. In Bangalore, the ABC/AR programme had sustainable results in effectively reducing stray dog multiplication as also rabies in the specified areas where it was implemented. This programme needs to be extended to the developing peripheral areas. Nevertheless, mass destruction is very cruel, as well as unscientific.

**XVI. CONCLUSION**

The Animal Welfare Board of India has completed 44 years of service in the promotion of Animal Welfare and Prevention of Cruelty to them. During the year under report the activities of the Board continued to extend all over the country including Jammu Kashmir and the North Eastern States and even in remote rural areas of the country. The hitherto dormant and inactive Animal Welfare Organisations recognised by the Board were activated. The prompt and effective action by the State Governments, Collectors, Secretaries to Govt., Dept of Animal Husbandry are highly encouraging.

With the gradual increase in allocation of financial grants, the Animal Welfare activities have been widened consistently. The transferring of Centrally Sponsored Schemes to AWBI for implementation through Animal Welfare Organisations/Institutions widened its scope and functions and augmented double fold the Board's activities.
